Product Data Sheet

Bronzing Powder

M380 – (color number)
Available in 1 ounce and 8ounce jars

Product Description: Bronzing Powders are concentrated lining grade bronzing colors free of fillers and extenders. Bronzing Powders are used to decorate picture frames, furniture, lamps, antique objects and many other items. For extra bright effects, highlighting is effective. Raised portions of a frame can be burnished to a higher luster thus creating a contrast with the rest of the work. Packaged by volume.

Advantages:

1. Fade resistant, non-bleeding permanent colors.
2. Ultra fine ground for maximum color yield.
3. Colors transfer and blend easily on the surface without attacking the finish.
4. May be topcoated immediately.

Characteristics:

Weight per gallon: 70.94 lbs/gal*
Solids % (wt): 100%
Solids % (vol): 100%
Dry time:
To handle or recoat: immediately
VOC's: 0.0 lbs/gal (0.0 g/l)
VHAP's: 0.0 lbs VHAP's/lb solids
Package Life: 3 years
* = varies depending on item number

HMIS: Health – 2, Flammability – 1, Reactivity – 0, Personal Protection - X

Specifications:

Directions:

Brush or spray application: To make 8 oz., blend 5 oz. Graining Liquid, 2.5 oz. Ultra Penetrating Stain Retarder or Blush Resistant Reducer and 1 oz. Bronzing Powder. Bronzing Powder may be added to glazes as needed to make a metallic glaze and also into lacquer for a metallic coating, however they must be used within 1-2 hours as they may become unstable and turn the coating thick and green in color.

Safety cautions:
Caution: Harmful if inhaled.

Contains: metallic powders

Do not use catalyst with Bronzing Lacquer. Powder can cause eye, nose and throat irritation. Use only with adequate ventilation. Avoid breathing dust. Wash thoroughly after using. Colors container after each use.

First Aid: if difficult to breathe leave area, obtain fresh air or call a physician

KEEP OUT OF REACH OF CHILDREN

For industrial use only

For additional warnings and safety information, consult MSDS.
