

Beyond The Surface

Butcher Block Conditioner Application Instructions from Howard Products

Shake gently before using. Apply with a clean soft cloth. Let stand at least 20 minutes. Wipe off any excess and buff to a nice shine. Apply additional coats whenever the wood looks or feels dry. For thick wood surfaces like butcher blocks, apply at least 2 coats and use Howard [Cutting Board Oil](#) to season the wood before maintaining with Butcher Block Conditioner. Apply to all sides of the wood surface for even penetration of the oil into the wood and to thoroughly condition all surfaces.
