

## Restor-A-Finish Application Instructions from Howard Products

**Do not pour directly on finish. Always wipe off excess Restor-A-Finish.** Choose the color that best matches the finish of your wood. Apply with a small pad of cloth, or (for severe scratches and white rings) apply with super fine (0000) steel wool. When using steel wool, always rub with the wood grain. Finishes vary in hardness, so test pressure to be used with steel wool on an inconspicuous spot. Cover a small area at a time and immediately wipe dry. For best results, wait at least 30 minutes and then apply a coat of Howard [Feed-N-Wax](#) to protect and maintain the newly restored finish.

### Precautions

**Do not use polyurethane over Restor-A-Finish.** Be careful to protect fabric, carpets, or linoleum when applying Restor-A-Finish, as it may leave a permanent stain. If spilling does occur, immediately scrub area with soap and water or a stain remover and wipe dry. Be sure to apply to a small area at a time when using Restor-A-Finish. Always wipe dry. Restor-A-Finish may not be able to penetrate harder polyurethane finishes. If high gloss finish should appear dull due to the use of steel wool, polish it out with [Restor-A-Shine](#) Polishing Compound. Always test in an inconspicuous area to check results.

**CAUTIONS: DANGER! FLAMMABLE.** Contains petroleum distillates. Keep away from heat, sparks, and flame. Before using this product in the workplace, read the Safety Data Sheet (SDS) available online. This product is intended for occasional use only. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage.

**VAPOR HARMFUL.** Use with adequate ventilation. To avoid breathing vapors, open windows and doors or use other means to ensure a cross ventilation of fresh air through work area. If you experience eye watering, headaches or dizziness, increase fresh air or wear respiratory protection (NIOSH/MSHA approved) or leave the area. Avoid prolonged contact with skin. Close container after each use. Do not transfer contents to bottles or unlabeled containers.

**FIRST AID:** If swallowed, DO NOT INDUCE VOMITING. Call physician immediately.

**EYE CONTACT:** Immediately flush with water for at least 15 minutes.

**SKIN CONTACT:** Wash with soap and water.

 **WARNING:** This product can expose you to chemicals including Ethylbenzene, which are known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

**DO NOT TAKE INTERNALLY. KEEP OUT OF THE REACH OF CHILDREN.**
