## Sanding freedom

Effortlessly transition from corded to cordless without compromising performance. Balanced with a unique ergonomic battery for optimum performance and handling. The ETSC 125 provides the same functionality of its corded counterpart but with hybrid power options - use it cordless or corded. The 18-volt Ergo battery provides up to 30 minutes of runtime at full power. Work virtually dust-free with Jetstream® dust extraction technology to ensure a cleaner surface and work environment with longer abrasive life for better sanding results. Integrated, removable Protector provides protection to abutting surfaces as well as the pad for up close sanding applications.

- Hybrid power source - corded or cordless operation
- Ergo battery for balance and ergonomics
- Jetstream® dust extraction for cleaner surfaces and work environment
- 30 minute recharge for 18-volt, 3.1 Ah battery (with TCL 6 charger)
- Protector guard protects pad and abutting surfaces from damage

Effortlessly transition from corded to cordless without compromising performance. Balanced with a unique ergonomic battery for optimum performance and handling the ETSC 125 has the power and dust extraction for a fine sanding result. This dual power mode sander allows you the flexibility to sand whenever or wherever.

\*See Table on page 161 for ETSC 125 options

## Features + Capabilities

### Versatile

With the hybrid power system, ETSC 125 provides corded or cordless operation without compromise.

### Edge Protector

Removable edge protector provides protection to abutting surfaces as well as the pad for up close sanding applications.

### Dust extraction

Jetstream design delivers highly efficient dust removal, resulting in cleaner air, better finishes, and longer abrasive and pad life.

### Different strokes

The ETS 150 sanders are distinguished by their stroke size; one for intermediate, and the other for super-fine sanding.

### Ergonomics

Formed to fit comfortably in any size hand. Compact and lightweight enough for extended vertical and overhead use.

### Tight sanding stroke

With a 5/64" (2 mm) sanding stroke, the ETS 125 produces exceptional fine and super-fine sanding results.

## More Details

### Vibration-stop

Balanced design delivers better finish results, smooth operation and greater comfort.

### Pad brake

Stops the pad quickly when setting the tool down, for less worry of potentially damaging a freshly finished workpiece.

### StickFix® mechanical fastening design

Fast and easy abrasive removal with resilient pad hooks and hard-wearing fabric backing for longer abrasive and pad life.

## ETS Accessories

Though matching the abrasive to the material is critical, choosing the right pad shouldn't be overlooked, since it can make a huge difference in the finished surface quality. For maintaining a crisp edge, Festool recommends hard pads. For contours and profiles, we suggest the super-soft pad. And for general-purpose sanding, the standard supplied soft pad is well-suited for most applications.

## Granat Abrasives

Thanks to its amazing versatility and durability, Festool's Granat abrasive is gaining a reputation as the "ultimate abrasive" for both finished and bare wood surfaces. Originally designed for solvent-based high-VOC surfaces and paints, its anti-clogging properties are well-suited for a broad range of applications, including clear coats, composites, mineral and solid surfaces.

## Rubin 2 Abrasives

Building on the industry-leading performance of the original Rubín abrasive, Festool's Rubín 2 sets a new standard for efficiency—perfect for all wood-finishing applications. Rubín 2 is designed to minimize the time spent on each level with a 30% faster removal rate and a 30% longer sheet life.

For a complete listing of abrasives, including Saphir, Platin 2, and Vlies—plus additional pack quantities for Rubín 2 and Granat—please visit [festoolusa.com/abrasives](http://festoolusa.com/abrasives).

## Features + Capabilities

### Your best finish

Designed for rapid grit progression, you'll spend less time getting from 80 to 220, achieving the best possible finished surface in the least amount of time.

### Versatile

Exceptional anti-clogging properties make Granat an ideal solution for a wide range of painted and finished surfaces, in addition to virtually any wood application.

### Finish faster

Rubin 2 is designed to quickly shed wood fibers, eliminating clogging so the abrasive stays sharp, leading to a 30% faster removal rate.

### Save money

Since Rubin 2 is designed to prevent clogging due to the buildup of pitch and wood fibers, you'll get up to 30% longer life out of every sheet.

## More Details

### Dust extraction

Just like so many of our tools, our abrasives are designed with dust extraction as a primary consideration. It isn't enough to just put holes in the paper; they have to work together with the pad for optimum airflow while ensuring consistent finish results. All this with less mess and longer lasting abrasives.

### High quality

Quality is more than what goes into making an abrasive—it's what you get out of an abrasive. Festool abrasives are designed to match the performance of Festool sanders for the ultimate in finish quality; which is the quality that matters most.

### High performance

A high-performance abrasive is one that cuts quickly and efficiently with minimal loading, uniform scratch patterns, durability and a long, long life. Get more mileage out of your abrasives with Festool.

 system. unmatched.

## Sanding pads

Easily overlooked but essential to ultimate sanding performance, Festool Sanding Pads are designed and built for perfectly smooth sanding results while surviving the most demanding applications. Available in different densities and types, sanding pads are the secret to great finishes.
