

AAA Line

Air Assisted Airless Equipment

Cougar

Designed for fine finish spraying, the Cougar incorporates features that make for comfortable and professional operation. It's precise geometry of the airless tip and HVLV air cap provide for the finest finish and most superior atomization possible.

- Fine Finish Soft Spray
- Best Transfer Efficiency
- Smooth Fluid Flow Path
- Made in America
- 2500 PSI Working Pressure
- Handgun Integrated Fluid Filter
- 100% Stainless Steel Fluid Passages

Bobcat

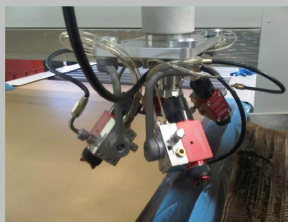

Designed for production wood and metal finishing, the Bobcat spray gun features a lightweight design and stainless steel fluid passages. The Bobcat's superior atomization is achieved with the precise geometry of the airless tip and HVLV air cap, providing the finest finish possible.

- Ergonomic Design
- Handgun Integrated Fluid Filter
- Best Transfer Efficiency
- Made in America
- Fine Finish Soft Spray
- 1800 PSI Working Pressure
- 100% Stainless Steel Fluid Passages

Bobcat Automatic

The Bobcat Automatic Air Assist Airless gun designed for production wood and metal finishing. Features include lightweight design, stainless steel fluid passages and encompasses a new revolutionary needle design that simplifies maintenance and cleaning. Each gun is packaged with the ability to be used in circulating or non-circulating systems. The gun circulates very close to the tip to minimize material settling. The Bobcat Automatic is designed for being a direct replacement for existing competitor guns with virtually no changes in the mounting block or hardware. Available with a standard or cefla manifold.

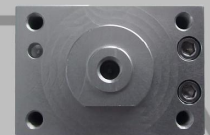

- New needle design for ease of maintaining and cleaning.
- All stainless steel wetted areas, great for wood working and metal finishing.
- Direct Replacement for existing competitor guns with virtually no changes in mounting hardware.
