

3 Way Clamp™

Edge trim isn't always easy to install and taping trim doesn't always provide the pressure needed for bonding edging. FastCap's solution is the 3 Way Clamp. We've combined the usual spring clamp with an additional spring that applies a third direction of pressure. With approximately 30lbs of clamping pressure, the 3 Way Clamp can provide a better bond than tape alone.

Features...

- Non-marring rubber tips
- Spring clamp and edge clamp in one
- Simple to use and remove
- Approx. 30lbs of edge pressure

Great For...

- All types of edge banding
- General clamping purposes
- Straight lines with no hassle
