NEW Cordless 18V
DTSC 400* | \$270.00
575383

Effortlessly transition from corded to cordless without compromising detailed performance. The DTSC 400 is balanced with a unique ergonomic battery for optimum performance and handling so you can achieve the best finished result.

*See Table on page 167 for DTSC 400 options

Features + Capabilities

Versatile

With the hybrid power system, both the DTSC 400 and RTSC 400 provide corded or cordless operation without compromise.

Edge protector

Removable edge protector provides protection to abutting surfaces as well as the pad for up close sanding applications.

Orbital sanding motion

Full pad contact with controlled and fine orbital sanding motion to minimize swirl marks and produce smoother surfaces.

Vibration-stop

Balanced design delivers better finish results, smooth operation and greater comfort.

All-around sanding

Compact design and low weight for working overhead or on vertical surfaces.

Ergonomic grip

Conforms to your hand to help reduce fatigue during prolonged use.

More Details

StickFix® mechanical fastening design

Fast and easy abrasive removal with resilient pad hooks and hard-wearing fabric backing for longer abrasive and pad life.

Variable speed

Stepless speed control allows you to adjust to the needs of the application.

Granat Abrasives

Thanks to its amazing versatility and durability, Festool's Granat abrasive is gaining a reputation as the "ultimate abrasive" for both finished and bare wood surfaces. Originally designed for solvent-based high-VOC surfaces and paints, its anti-clogging properties are well-suited for a broad range of applications, including clear coats, composites, mineral and solid surfaces.

Rubin 2 Abrasives

Building on the industry-leading performance of the original Rubín abrasive, Festool's Rubín 2 sets a new standard for efficiency—perfect for all wood-finishing applications. Rubín 2 is designed to minimize the time spent on each level with a 30% faster removal rate and a 30% longer sheet life.

For a complete listing of abrasives, including Saphir, Platin 2, and Vlies—plus additional pack quantities for Rubín 2 and Granat—please visit festoolusa.com/abrasives.

Features + Capabilities

Your best finish

Designed for rapid grit progression, you'll spend less time getting from 80 to 220, achieving the best possible finished surface in the least amount of time.

Versatile

Exceptional anti-clogging properties make Granat an ideal solution for a wide range of painted and finished surfaces, in addition to virtually any wood application.

Finish faster

Rubin 2 is designed to quickly shed wood fibers, eliminating clogging so the abrasive stays sharp, leading to a 30% faster removal rate.

Save money

Since Rubin 2 is designed to prevent clogging due to the buildup of pitch and wood fibers, you'll get up to 30% longer life out of every sheet.

More Details

Dust extraction

Just like so many of our tools, our abrasives are designed with dust extraction as a primary consideration. It isn't enough to just put holes in the paper; they have to work together with the pad for optimum airflow while ensuring consistent finish results. All this with less mess and longer lasting abrasives.

High quality

Quality is more than what goes into making an abrasive—it's what you get out of an abrasive. Festool abrasives are designed to match the performance of Festool sanders for the ultimate in finish quality; which is the quality that matters most.

High performance

A high-performance abrasive is one that cuts quickly and efficiently with minimal loading, uniform scratch patterns, durability and a long, long life. Get more mileage out of your abrasives with Festool.

 system. unmatched.

Sanding pads

Easily overlooked but essential to ultimate sanding performance, Festool Sanding Pads are designed and built for perfectly smooth sanding results while surviving the most demanding applications. Available in different densities and types, sanding pads are the secret to great finishes.
