ETS EC 150/5 EQ | \$510.00
575051

Equipped with the EC-TEC® Brushless Motor, these low-profile, long-life and low-vibration sanders can run all day with multiple shifts. Available in a fine 1/8" (3mm) stroke or a broader 3/16" (5 mm stroke), these sanders use a larger 6" pad and offer the performance of an air sander without the bulk of an air system. Not to mention, their compact design and ergonomic grip save time and allow for less fatigue – making them the ultimate high-demand sanding tools.

Features + Capabilities

More Power

The EC-TEC® Brushless Motor delivers more power to the pad, with a higher degree of efficiency and long life with no downtime for brush replacement.

Less Fatigue

Active electronic vibration control constantly monitors sanding activity to ensure easy operation and a smooth surface, while minimizing arm strain for less fatigue.

Better Dust Control

Electronic hose detection sensor alerts the user if the dust extraction hose becomes disconnected, helping to ensure a better finish result and cleaner work environment.

Increased Flexibility

Allowing for less fatigue and more control, these compact sanders have a lower design height and a rubberized top grip to fit any size hand.

More Details

Protects From Marring

The pad brake protects the surface from marring by quickly stopping the pad movement when starting or stopping. In addition, the pad brake saves time, improves safety and extends the life of the sander.

Less Downtime

StickFix minimizes the downtime of changing abrasives and increases overall savings. Additionally, the resilient pad hooks and hard-wearing fabric backing lead to longer abrasive and pad life.

 system. unmatched.

Suction Hose With Sleeve

Festool's Anti-Static Dust Extraction Hoses have an integrated plug-it-cable with a sleeve around them to protect surfaces from damage. Sleeved hoses help prevent tangling, while also allowing the hose to easily glide over surfaces and edges.

See page 14 for more information.

ETS Accessories

Though matching the abrasive to the material is critical, choosing the right pad shouldn't be overlooked, since it can make a huge difference in the finished surface quality. For maintaining a crisp edge, Festool recommends hard pads. For contours and profiles, we suggest the super-soft pad. And for general-purpose sanding, the standard supplied soft pad is well-suited for most applications.

	Adapter ACA 100-120 18V ERGO Adapter snaps into the ETSC sander to provide uninterrupted power from AC power sources (110v AC) Compatible with 18 AWG Plug-It cords (included).		\$120.00 202502		
	Battery pack BP 18V ERGO 3.1 Ah, 18-volt Lithium Ion battery charges in 30 minutes on the TCL 6 charger. Integrated fuel gauge provides a quick push-button view of the battery level.		\$74.00 202500		

¹ All ETS 125 accessories can be used on the ES 125 - except 201690/201693. ² All ETS 150 accessories can be used on the RO 150 E (not the RO 150 FEQ).

Granat Abrasives

Thanks to its amazing versatility and durability, Festool's Granat abrasive is gaining a reputation as the "ultimate abrasive" for both finished and bare wood surfaces. Originally designed for solvent-based high-VOC surfaces and paints, its anti-clogging properties are well-suited for a broad range of applications, including clear coats, composites, mineral and solid surfaces.

Rubin 2 Abrasives

Building on the industry-leading performance of the original Rubín abrasive, Festool's Rubín 2 sets a new standard for efficiency—perfect for all wood-finishing applications. Rubín 2 is designed to minimize the time spent on each level with a 30% faster removal rate and a 30% longer sheet life.

For a complete listing of abrasives, including Saphir, Platin 2, and Vlies—plus additional pack quantities for Rubín 2 and Granat—please visit festoolusa.com/abrasives.

Features + Capabilities

Your best finish

Designed for rapid grit progression, you'll spend less time getting from 80 to 220, achieving the best possible finished surface in the least amount of time.

Versatile

Exceptional anti-clogging properties make Granat an ideal solution for a wide range of painted and finished surfaces, in addition to virtually any wood application.

Finish faster

Rubin 2 is designed to quickly shed wood fibers, eliminating clogging so the abrasive stays sharp, leading to a 30% faster removal rate.

Save money

Since Rubin 2 is designed to prevent clogging due to the buildup of pitch and wood fibers, you'll get up to 30% longer life out of every sheet.

More Details

Dust extraction

Just like so many of our tools, our abrasives are designed with dust extraction as a primary consideration. It isn't enough to just put holes in the paper; they have to work together with the pad for optimum airflow while ensuring consistent finish results. All this with less mess and longer lasting abrasives.

High quality

Quality is more than what goes into making an abrasive—it's what you get out of an abrasive. Festool abrasives are designed to match the performance of Festool sanders for the ultimate in finish quality; which is the quality that matters most.

High performance

A high-performance abrasive is one that cuts quickly and efficiently with minimal loading, uniform scratch patterns, durability and a long, long life. Get more mileage out of your abrasives with Festool.

 system. unmatched.

Sanding pads

Easily overlooked but essential to ultimate sanding performance, Festool Sanding Pads are designed and built for perfectly smooth sanding results while surviving the most demanding applications. Available in different densities and types, sanding pads are the secret to great finishes.
