

HD Touch-up Marker

Premier's new High-Definition brush tip touch-up tool provides high detail touch-ups and extremely fine line graining.

- Synthetic brush tip will apply fine lines or very long runs without losing ink to the tip.
- Specially formulated dyes give perfectly crisp and clear colors for easy matching and blending.
- State of the art resin system for smooth application and excellent durability and gloss.
- Dye-resin blend applies smoothly for both long or short runs, but dries quick enough for almost immediate handling or clear coating.

36 Colors

- Durable precision brush tip holds its shape indefinitely.
- Assortment comes in a convenient roll-out canvas pouch.
- Easy to use, simply remove cap and apply.
- 36 colors provide exact matches to most colors available.
- Color coded label shows the exact color of each marker.
