

The DEWALT DWP849X 7 in./9 in. Variable Speed Polisher with Soft Start features a powerful, 12 Amp, all ball-bearing construction motor for long life and durability. Electronic control maintains the specified speed under load, delivering the desired finish results, while the conveniently located variable speed dial lets you set the maximum speed from 0-600/3500 RPM for different materials and applications. A variable-speed trigger allows you to control speed from zero to the dialed maximum setting easily. Designed for efficiency, the polisher includes heat-treated, precision-cut steel gears for smooth operation and external brush caps for easy servicing, with a large spindle lock button for quick and simple backing plate changes. It also features a wool ingestion shield to increase your tool's life and reduce service costs for years of hassle-free use.

Includes polisher, hook and loop backing pad bale and straight side handles

12.0 Amp, all ball-bearing construction ensures lasting use

Variable speed dial lets you match the speed to each unique application

Variable speed trigger allows for easy control

Precision-cut steel gears deliver smooth operation

Wool ingestion shield eliminates wool ingestion for longer tool life

Non-mar rubber gear case cover reduces surface imperfections and improves gripping surface

90-day money back guarantee, 1-year free service contract and 3-year limited warranty
