

Polarstar®

Q: What is Polarstar®?

A: A polyester film backing creates a more flexible and smoother abrasive surface, providing outstanding performance on demanding applications such as hard tooling gelcoats and the latest scratch resistant automotive clearcoats.

Q: Where to use Polarstar®

- A:** Hard tooling gelcoats and scratch resistant automotive clearcoats.
- A:** Designed for optimum performance on both wet and dry sanding.
- A:** Efficiently tackles the latest surface prep and repair applications

Q: What are the features and benefits of Polarstar®?

- A:** Polyester film backing creates a more flexible, smoother abrasive surface.
- A:** Unique abrasive material resists clogging and delivers long lasting performance
- A:** Excellent durability – retains its high performance sanding properties
- A:** Environmentally friendly solvent-free coating system.
- A:** Can be used for dry or wet sanding.

	Available Sizes	Available Grits
	Grip	P600-P1500
	Grip	P600-P1500
	Grip	P600-P1500
	15-Hole Grip	P600-P1500

TECHNICAL SPECIFICATIONS

Grain	Aluminum oxide P600, Silicon carbide P800–P1500
Bonding	Resin over resin
Backing	Polyester film
Coating	Semi-open
Color	Green / white
Attachment	Grip

DISTRIBUTED BY:
