

Surface Inspection Light Set | \$510.00 202912

Combined with our tool-free ST DUO Tripod and the new Adapter AD-ST DUO 200, this set gives you everything you need to see your work in detail. The STL 450 reveals surface flaws and defects unlike any other light source. Reduce callbacks and increase customer satisfaction by seeing the surface in a whole new light. Unique form factor allows close and even placement of light without marring delicate surfaces.

Features + Capabilities

Maintenance Free

With its all-round edge protection and robust, splash-proof plastic housing, the STL 450 light is ideal for any construction site condition.

Adjustability

Available Tripod and adapter allow the height and angle of the Surface Inspection Light to be quickly and easily adjusted according to your individual needs.

Unique Festool Optics

We have developed unique optics for the Surface Inspection Light. The light has such a powerful focus that it enables you to detect any unevenness or flaws immediately.
